

A program designed to put a stronger emphasis on
what matters most:

The safety of yourself, those around you, and
the impact you make on others.

LEGACY
SAFETY

Leaving a Safety Legacy

Leaving a Safety Legacy is a refreshing look at what many companies across the country struggle with when attempting to create their own effective safety culture: Compliance and Engagement. By challenging the status quo and the “what’s in it for me” mentality, this program is designed to get attendees to put a stronger value on what matters most; their own personal safety as well as the safety of others around them, both on the job and at home.

Through a lecture style format, our *Leaving a Safety Legacy* presentation has been making an impact at conferences and events across the country with attendees finding the message genuine, entertaining, and heartfelt. In this presentation our keynote speaker, Wylie Davidson, utilizes both his training and the real-world experiences that he has gained, to share with the audience the perfect mix of high energy, humor, and insight that attendees enjoy and take away from. Wylie’s presentation style and thought-provoking anecdotes keep them hanging on and making the connection.

Attendees walk away with a clear understanding of how their safe actions impact themselves, as well as others, and make a personal connection to the reasons why it’s important to be safe. One of the best takeaways of this presentation is that every attendee can relate to it at some point on a personal level. By challenging them to reflect on ways that they can give back to those around them, attendees discover what is most important to them and as a result close the gap between having to be safe and wanting to be, ultimately creating their own safety legacy.

If you’re looking for an informative, creative, and energetic session to keep your employees “leaning in”, then this program is for you!

A man in a workshop setting, wearing a dark jacket, is looking at a laptop screen. The background shows various pieces of equipment and cables, suggesting a technical or industrial environment. The image is overlaid with a semi-transparent white and blue gradient.

 **CONNECTING**

Your actions to safe behaviors.

 **RESETTING**

Your values at work and at home.

 **BUILDING**

The foundation to a safer personal environment.

“What will they say about you?”

Tier 1

1 Hour

Leaving a Safety Legacy

Leaving a Safety Legacy is a presentation designed to get attendees to put a stronger value on what matters most to them, both on the job and at home. Attendees explore both sides of what makes up an effective safety program by discovering what's in it for them as well as the contributions that they can give back to others. By making safety personal, attendees establish a clear vision of what those pieces are, who and what they represent and utilize them to create the foundation to their own safety legacy. Attendees walk away with a strong understanding of how their actions effect themselves, others and the impact that they make.

Tier 2

4 Hour

Legacy Builder Workshop

Created from the primary message of *Leaving a Safety Legacy*, this workshop better defines the mechanics of what makes great leaders great. Built on three key pillars of Trust, Awareness and Leadership, this workshop explores deeper into recognizing and reacting to these characteristics, as well as providing tools for you to succeed. This program utilizes over 35 years of management experience with a focus on discovering the keys to affective leadership. This interactive workshop promises to deliver the key ingredients to help young leaders grow and seasoned leaders shine.

Tier 3

Yearly Program

Legacy Leadership Campaign

This one-year program is designed to not only get your team on the same page from a safety culture perspective, but also serves as the platform for leaders at all levels to grow and strengthen their own leadership skills. Included in the Campaign are both the *Leaving a Safety Legacy* message as well as the *Legacy Builder Workshop* to set the standard for your team's continuing growth path. From there your leadership team will embark on a journey to create and grow their own effective management skills. This program will continue to support and strengthen not only their own personal skill sets, but in addition foster a stronger safety environment throughout the company.

Wylie Davidson

Motivational Speaker, Safety Culture Specialist

As a motivational speaker and safety culture specialist, Wylie's ability to energize audiences while getting them to realign their personal values with company safety standards has been an effective resource with hundreds of companies and conferences across the U.S., Canada, and Mexico. With over 35 years of sales, leadership, and safety experience, Wylie has seen both sides of what an effective safety culture looks like, and his insight resonates with his audience. Seeing firsthand the impact a presentation makes is a driving force for Wylie's passion in motivational safety speaking. Attendees find him both engaging and heartfelt often referring to him as "one of us."

Amy Davis

Corporate Educator, Performance Specialist

As a leadership provider with a focus on personal behavior in and away from the workplace, Amy's coaching skills and ability to promote active learning have made her an asset with companies looking to raise the ceiling on their own leadership capabilities. Throughout her career, she has made a dramatic impact on teams utilizing over 15 training certifications and over 25 years of experience in leadership development and core business skills. Amy's highly motivated and professional training style is contagious at all levels of an organization. From the classroom to the boardroom, she will leave a lasting impression from entry level associate to C-suite executive.
